EDUCATION

University of Transport Ho Chi Minh City (UTH)
Bachelor of Data Science

Sep 2023 – Dec 2026

- **Major:** Data Science.
- **GPA:** 3.25/4.0
- **Core Coursework:** Statistics for Data Science, Database Management Systems, Data Analysis and Visualization, Python Programming, Machine Learning & Deep Learning (Basic).

EXPERIENCE

• Social Media Data Analyst Intern | Reputyze Asia

May 2026 – Oct 2026

- Supported the development and operation of social media data collection workflows across Facebook, TikTok, and Threads, including daily data quality checks.
- Contributed to monitoring and alert workflows, including a Telegram Bot for negative sentiment and content alerts.
- Developed a Chrome Extension for sentiment labeling and researched Qwen2.5-7B on RunPod for sentiment classification.
- Researched MySQL, PostgreSQL, ClickHouse, Elasticsearch, as well as CDP, CRM dashboards, and social media APIs to support data systems and proposals.
- Supported market research, data analysis, and business reporting, including research on the Vietnam retail market in Q3 2026.

PROJECTS

• End-to-End E-Commerce Customer & Sales Analytics ([GitHub](#), [Streamlit Dashboard](#))

- Built an ELT pipeline for 51,290 records, identified a 5.25-day logistics bottleneck, segmented 38,995 customers with RFM/K-Means, and analyzed \$7.81M revenue / 46.22% margin.
- Languages & Technologies: SQL Server, Python, Streamlit.

• Ho Chi Minh City Housing Market Analysis 2021 – 2025 ([GitHub](#), [Power BI Dashboard](#))

- Built an automated crawling pipeline for 163,000+ listings, improving collection efficiency by 90%, then analyzed district-level pricing and market trends through EDA and Power BI.
- Languages & Technologies: Python (Selenium, BeautifulSoup), Power BI.

• Essential Commodity Price Analysis in Vietnam 2005 - 2025 ([GitHub](#), [Power BI Dashboard](#))

- Standardized 20 years of pricing data across 7 essential commodities and analyzed long-term price movements against major economic events using Power Query and DAX.
- Languages & Technologies: Excel, Python, Power BI.

TECHNICAL

- *Python (Advanced):* Expert in data analysis (Pandas/NumPy), basic foundations in ML & DL pipelines and data collection experience.
- *SQL (Proficient):* Complex queries, CTEs, and Window Functions.
- *Power BI (Advanced):* DAX, Data Modeling, interactive dashboard design.
- *AI & Tools:* Prompt Engineering, Agents Dev, Git/GitHub.
- *Web & Data:* Node.js, D3.js, Excel (VBA/Pivot).
